FINDING LIFELONG ANSWERS IN THE FIRST NINE MONTHS OF LIFE.

2016 Philanthropy Report

**MAGEE-WOMENS
RESEARCH INSTITUTE &
FOUNDATION**

Magee is making research discoveries across a woman's entire lifespan. From the first nine months of gestation and through the various stages in a woman's life, Magee's physician-scientists are engaged in research about conception through childhood and adolescence, to reproductive life, pregnancy, menopause, and aging.

Through Magee's revolutionary 9-90™ research, investigators and physicians focus on how pregnancy and fetal development can affect population health for future generations. By better understanding the first nine months of life, researchers are able to predict and even change the course of illnesses that can occur over a lifetime.

These discoveries would not be possible without the support and generosity of Magee's philanthropic partners. Philanthropic support enables researchers to ask more questions, advance knowledge, and directly impact the lives of countless women, men, and infants. Thank you for helping to change the future of humankind.

OUR PARTNERS

Our partners listed below and on the following pages are those who have made a donation in support of Magee-Womens Research Institute & Foundation from July 1, 2015 through June 30, 2016. Thank you for your generous support. Every year, our list grows to include more partners investing in women's health research, patient care and education.

We also would like to extend a special thank you to our many anonymous donors. Your truly selfless act means a great deal to our researchers, physicians, nurses, caregiving staff, patients and their families.

Every attempt has been made to ensure the accuracy of this list. If you have any questions, please contact Jean King at kingrj@mwri.magee.edu or 412-641-8968.

Dr. Rudy Sabbagha, (second from right), former resident trained at Magee, wanted to honor his mentors, Dr. Donald Hutchinson and Dr. T. Terry Hayashi. His gift created a lecture in innovative research and renamed the hospital's auditorium. Pictured in front of the auditorium are members of the Hayashi and Sabbagha families.
